HEARING AID: CARE AND MAINTENANCE ROUTINE

Hearing aid: Care and Maintenance Routine

Task	How Often	Why it helps and how to do
Clean mould/ tip/ dome	Daily	Keeps it clean and clear for good sound. Use a soft cloth to wipe. Do not use chemicals to clean.
Inspect the wax guard	Daily	Remove the wax from wax guard for clarity of speech, use tools given with the hearing aids (brush).
Dry the hearing aid with dry kit	Daily	Removes sweat and moisture, which can cause damage to the hearing aid. Do this every night and after playing.
Remove battery when not in use	Daily	Saves battery and prevents rusting inside the device.

Hearing aid: Care and Maintenance Routine

Task	How Often	Why it helps and how to do
Battery check and replacement	Weekly	Make sure there is enough power. Change/recharge the battery if weak or if a beep sound is heard.
Mould/tube inspection	Monthly	Check if it has turned hard or changed colour (yellowish), if so, replace it.
Annual servicing	Yearly	Get servicing done at the audiology clinic to maintain good and clear hearing.
